

# Youth

## Leadership Program

*Inspiring Today's Youth to Become Tomorrow's Leaders*

Our Trail Blazers youth leadership program creates a therapeutic and rich learning environment that cultivates incredible opportunities for your child or your organization to explore, discover, and enrich themselves on so many levels. This program is a creative equine based program that creates an unforgettable experience to inspire youth to journey towards their full potential. This amazing learning opportunity will help each participant gain critical life skills and the confidence to help them overcome challenges and cope with the social pressures and stress they face today.

Participants are partnered with a horse and are encouraged to be creative and innovative, and to accept responsibility and accountability to ultimately overcome barriers and achieve objectives. Participants will work with horses and their teammates to achieve their goals, which we then connect to their own experiences at school, home, and in the community. Effective communication, assertiveness, creative thinking, problem solving, responsibility, confidence, and team work are several examples of the skills participants will develop to help them recognize and demonstrate exemplary leadership qualities.
